## Lip Smacking Taste!

It is surprising to see when healthy food comes with a hint of good taste. Tiyaa Delights ensures different tastes to our healthy superfoods. These are tastes derived from traditional likings and habits by the Indian consumers.

We have developed these flavours after a much deliberate effort at our state-of-the-art research facility. We had another challenge to keep the health benefits intact while introducing new and exciting flavours. But these challenges were met with hours of research and hundreds of trials. There were sample tastings and surveys conducted, so that we can provide our customers better products with best prices.

Only after our experts were satisfied, these superfoods wore the amazingly unmatched flavours that have become an identity of Tiyaa Delights.
